//

我们的共同目标

// To foster human progress through knowledge...

What really excites me is thinking about how technology can be applied to solve this problem, so that the unprecedented amount of knowledge available can have an equally unprecedented impact on the sustainable progression of our shared human experience, instead of sitting disconnected on servers and shelves around the world.

//

新技术给我们带来的好处

Making article submission simple

Developed to offer a streamlined and simple article submission experience, the Submission Portal integrates with your existing peer review system to guide authors through submitting their paper accurately and quickly.

Finding the right home for all sound research

Our Article Transfer Service helps speed up the publication process and reduce unnecessary effort from authors, reviewers and journal editors. Due to popular demand, we're extending this service, which supports researchers with its wide range of publication options.
